Documents in this section are not all freely accessed, subscriptions can be required, the 'moving wall' scheme applies in some cases

Adapted from DOAR (<http://www.opendoar.org/>) and ROAR (<http://roar.eprints.org/>), and crosschecked with the list of archives recorded by the Ministry of Education (<http://www.sup.adc.education.fr/Bib/Acti/ao/ao.htm>) and the Archives-Ouvertes portal (<http://www.archives-ouvertes.fr/>).

This listing does not include sites with restricted access or sites which could not be opened for various reasons: no longer active, too recently created, poor design, etc. The figures for records should be used with caution, particularly raw data from ROAR and DOAR, which are collected automatically and include both full text deposits and bibliographic records; in addition, archives using HAL are subsets of the generic HAL portal and should not be counted twice.
