HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Simulations of the effects of 2-D interstitial diffusion on void lattice formation during irradiation

Journal:	<i>Philosophical Magazine & Philosophical Magazine Letters</i>
Manuscript ID:	TPHM-05-Aug-0369.R1
Journal Selection:	Philosophical Magazine
Date Submitted by the Author:	25-Sep-2005
Complete List of Authors:	Evans, John; Camrose Consultants
Keywords:	voids, irradiation effects
Keywords (user supplied):	self-interstitials
Note: The following files were submitted by the author for peer review, but cannot be converted to PDF. You must view these files (e.g. movies) online.
