HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Erratum to: NMR spectroscopy as a screening tool to validate nutrition labeling of milk, lactose-free milk, and milk substitutes based on soy and grains

Erratum to: Dairy Science & Technol. DOI 10.1007/s13594-011-0050-5

In the original article two errors have been introduced into Chinese abstract.

It concerns the following line copied here

检测限是 $0.03 \text{ g} \cdot \text{L}^{-2}$,可以直接对检测信号进行积分(线性范围为 $0.05\text{--}50.0 \text{ g} \cdot \text{L}$, $R > 0.999$)。脱乳。

It should have read:

检测限是 $0.03 \text{ g} \cdot \text{L}^{-1}$ 可以直接对检测信号进行积分(线性范围为 $0.05\text{--}50.0 \text{ g} \cdot \text{L}^{-1}$, $R > 0.999$)。脱乳。

Everything else in the paper remains correct.
