Modelling, Computation and Optimization in Information Systems and Management Sciences

Proceedings of the 3rd International Conference on Modelling, Computation and Optimization in Information Systems and Management Sciences - MCO 2015 - Part II

Series: Advances in Intelligent Systems and Computing, Vol. 360

- ▶ Latest research on Modelling, Computation and Optimization in Information Systems and Management Sciences
- ▶ Results of the 4th International Conference on Modelling, Computation and Optimization in Information Systems and Management Sciences - MCO 2015 - held May 11-13, 2015 In Metz, Salamanca
- ▶ Focuses on models and solutions methods for decision making in Engineering and Information Systems including contributions to the solution of real-life problems

This proceedings set contains 85 selected full papers presented at the 3rd International Conference on Modelling, Computation and Optimization in Information Systems and Management Sciences - MCO 2015, held on May 11–13, 2015 at Lorraine University, France. The present part II of the 2 volume set includes articles devoted to Data analysis and Data mining, Heuristic / Meta heuristic methods for operational research applications, Optimization applied to surveillance and threat detection, Maintenance and Scheduling, Post Crises banking and eco-finance modelling, Transportation, as well as Technologies and methods for multi-stakeholder decision analysis in public settings.
