

Moufida Maimour is an Assistant Professor at Lorraine University in Nancy, France. She received her engineer degree in Computer Science from the University of Constantine (Algeria) in 1998. She obtained her PhD in 2003 from Claude Bernard University in Lyon, France. She mainly worked on reliable multi-cast and congestion control in the internet. Currently, she is doing research in the area of wireless sensor networks especially energy-efficient routing protocols, congestion control, mobility and video transport.

Zahia Bidai is a researcher-teacher at Oran University, Algeria. She received her PhD degree from Oran University in 2013. She is a member in the Laboratory of Research in Industrial Computing and Networking, LRIIR. Her research interests are in the field of Wireless Sensor Networks (WSN), Wireless Personal Area Networks (WPAN) and multimedia applications. They include QoS routing, MAC protocols and the 6lowPAN protocol.
