**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

# EHRI Online Portal to Holocaust-related Sources

## European Holocaust Research Infrastructure (EHRI)

The mission of the European Holocaust Research Infrastructure (EHRI) is to support the Holocaust research community by building a digital infrastructure and facilitating human networks.

EHRI provides online access to information about dispersed sources relating to the Holocaust through its Online Portal, and tools and methods that enable researchers and archivists to collaboratively work with such sources.

Apart from providing an online platform, EHRI also facilitates an extensive network of researchers, archivists and others to increase cohesion and co-ordination among practitioners and to initiate new transnational and collaborative approaches to the study of the Holocaust.

EHRI thereby seeks to overcome one of the hallmark challenges of Holocaust research: the wide dispersal of the archival source material across Europe and beyond, and the concomitant fragmentation of Holocaust historiography.

## Online Portal to Holocaust-related sources

The EHRI portal offers access to information on Holocaust-related archival material held in institutions across Europe and beyond. For more information on the EHRI project visit <http://ehri-project.eu>.
