HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

THE STANDARDIZATION SURVIVAL KIT (SSK)

For a wider use of standards within Arts and Humanities

DH Benelux Conference 2017, 3rd-5th July 2017, Utrecht University

WHY standards ?

Standards are usually published by standardization organizations. They are:

- the expression of a **consensus**,
- **accessible** to anyone,
- actively **maintained**.

STANDARDS?!
OH MY GORK! WHAT ARE THEY? DO I REALLY NEED THEM FOR MY RESEARCH IN ARTS AND HUMANITIES? IT ALL SEEMS SO COMPLICATED, TORK....

WHAT is the SSK ?

BY
MALORK'S TENTACLES!
YES, MORK, YOU NEED TO USE STANDARDS IF YOU WANT TO PRODUCE RESULTS THAT CAN BE COMPARED WITH THOSE OF A WIDER COMMUNITY. AND THE STANDARDIZATION SURVIVAL KIT IS HERE TO HELP YOU!

The Standardization Survival Kit (SSK) is an overlay platform dedicated to promoting a wider use of standards within Arts and Humanities. It is conceived as a comprehensive online environment aiming at:

- **documenting** existing standards by providing reference materials,
- **fostering** the adoption of standards,
- and **communicating** to research communities.

HOW does it work?

The SSK takes a **user-centered** approach. It will guide scholars through all available resources, on the basis of **reference research scenarios** identified at the start of the project. The design intends to provide a **single entry point for both novice and advanced scholars** in digital methods.
