HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

A corrigendum on

New Insights on Leucine-Rich Repeats Receptor-Like Kinase Orthologous Relationships in Angiosperms

by Dufayard, J.-F., Bettembourg, M., Fischer, I., Droc, G., Guiderdoni, E., Périn, C., et al. (2017). *Front. Plant Sci.* 8:381. doi: 10.3389/fpls.2017.00381

In the original article, the reference for the *Prunus persica* (PRUPE, peach) sequence genome was incorrectly written as (Ahmad et al., 2011). It should be (Verde et al., 2013). The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way.

REFERENCES

Verde, I., Abbott, A.G., Scalabrini, S., Jung, S., Shu, S., Marroni, F., et al. (2013). The high quality draft genome of peach (*Prunus persica*) identifies unique patterns of genetic diversity, domestication and genome evolution. *Nat. Genet.* 45, 487–494. doi: 10.1038/ng.2586

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
