HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

OpenMethods

Collaborative platform for highlighting Open Access content about DH methods and tools

Members of the Community propose existing multilingual, interdisciplinary Open Access content. An Editorial Team selects, curates and re-publishes existing content.

¿Para cuándo los BRICS del conocimiento?

OCTOBER 7, 2017 ·

Introduction: A very interesting post written by Domenico Fiormonte on a more diverse and equal Digital Humanities. Fiormonte aims for a more critical digital humanities, but not only in relation to disciplines, methods or tools. He also emphasises on geopolitics and the Global South situation in the Digital Humanities field.
