HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L’archive ouverte pluridisciplinaire HAL, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d’enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.
A Persistent Naming System Based on Graph Transformation Rules

Marcheix D., Cardot A., Skapin X., Dieudonné-Glad N.

Contact email: anais.cardot@univ-poitiers.fr

Keywords: Persistent Naming, Reevaluation, G-Maps, Jerboa, Transformation Rules

Objective

- Solve the persistent naming problem
- Match the entities

Generalized Map

- Topological Model
- Based on boundaries

Jerboa Rules

- Rewrites a GMap

Persistent Naming and History Record

- Homogenous and general
- Updated with every new operations
- PNa = 1-n7 and PNb = 1-n4 after Step 1, 1-n7;2n0 and 1-n4;2n1 after Step 2
- c is created from a at Step 2, and PNC = 1-n7;2-n2

Reevaluation

- Made thanks to the History records,
- Completed when an operation is deleted or added
