Key words: errata, addenda – techniques: interferometric – astrometry – binaries: close – binaries: visual.

The paper ‘Speckle observations with PISCO in Merate – I. Astrometric measurements of visual binaries in 2004’ was published in Mon. Not. R. Astron. Soc. **357**, 1255–1266 (2005). There was an error with the calibration of the position angles of some measurements in Table 2. The corrected values are listed here.
