**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

## Correction: Synthesis and properties of push–pull porphyrins as sensitizers for NiO based dye-sensitized solar cells

Antoine Maufroy,<sup>ab</sup> Ludovic Favereau,<sup>a</sup> Frédéric B. Anne,<sup>a</sup> Yann Pellegrin,<sup>a</sup> Errol Blart,<sup>a</sup> Muriel Hissler,<sup>b</sup> Denis Jacquemin<sup>\*ac</sup> and Fabrice Odobel<sup>\*a</sup>

Correction for 'Synthesis and properties of push–pull porphyrins as sensitizers for NiO based dye-sensitized solar cells' by Antoine Maufroy *et al.*, *J. Mater. Chem. A*, 2015, 3, 3908–3917.

In the above manuscript, the use of the porphyrin systems as sensitizers in nano-crystalline NiO-based photocathodes was mentioned in the main text instructing the reader to “see Experimental part for details”, however, this should read “see the electronic supplementary information (ESI) for details”.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
