HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

A correction on

The Hinge Segment of Human NADPH-Cytochrome P450 Reductase in Conformational Switching: The Critical Role of Ionic Strength

by Campelo, D., Lautier, T., Urban, P., Esteves, F., Bozonnet, S., Truan, G., et al. (2017). *Front. Pharmacol.* 8:755. doi: 10.3389/fphar.2017.00755

There is a mistake in the values of the y axis of **Figure 1**. The correct version of **Figure 1** appears below. The authors apologize for the mistake. This error does not change the scientific conclusions of the article in any way.

The original article has been updated.

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
