HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Planck intermediate results

XV. A study of anomalous microwave emission in Galactic clouds (Corrigendum)

Planck Collaboration: P. A. R. Ade⁷⁷, N. Aghanim⁵³, M. I. R. Alves⁵³, M. Arnaud⁶⁶, F. Atrio-Barandela¹⁸, J. Aumont⁵³, C. Baccigalupi⁷⁶, A. J. Banday^{82,10}, R. B. Barreiro⁶⁰, E. Battaner⁸³, K. Key words. HII regions – radiation mechanisms: general – radio continuum: ISM – submillimeter: ISM – errata, addenda

There is a typographical error in the unit of the τ_{250} column of Table 3 of [Planck Collaboration XVI \(2014\)](#), resulting in all τ_{250} values listed being a factor of 10 smaller than they should be.

The values have been multiplied by 10^4 and *not* 10^5 as listed in the previously published version. All the values relating to τ_{250} in the main body of text and figures remain correct.
