

Dear LLNCS user,

The files in this directory belong to the LaTeX2e package for Lecture Notes in Computer Science (LNCS) of Springer-Verlag.

It consists of the following files:

readme.txt	this file
history.txt	the version history of the package
llncls.cls	the LaTeX2e document class
llncls.dem	the sample input file
llncls.doc	the documentation of the class (LaTeX source)
llnclsdoc.pdf	the documentation of the class (PDF version)
llnclsdoc.sty	the modification of the class for the documentation
llncls.ind	an external (faked) author index file
subjidx.ind	subject index demo from the Springer book package
llncls.dvi	the resulting DVI file (remember to use binary transfer!)
sprmindx.sty	supplementary style file for MakeIndex (usage: makeindex -s sprmindx.sty <yourfile.idx>)
splncls.bst	old BibTeX style for use with llncls.cls
splncls_srt.bst	ditto with alphabetic sorting
splncls03.bst	current LNCS BibTeX style with alphabetic sorting
aliascnt.sty	part of the Oberdiek bundle; allows more control
over	the counters associated to any numbered item
remreset.sty	by David Carlisle
