HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

HOW DIFFERENT ANTHROPOGENIC ENVIRONMENTS HAVE SHAPED THE GENOME OF *S. CEREVISIAE* ?

Virginie Galeote¹, Jean-Luc Legras, Frédéric Bigey, Souhir Marsit, Carole Camarasa, Thibault Nidelet, and Sylvie Dequin

Address¹ SPO, Univ Montpellier, INRA, Montpellier SupAgro, Montpellier, France
Email: virginie.galeote@inra.fr

The yeast *Saccharomyces cerevisiae* plays an important role in food and beverage
