**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

## New precession expressions, valid for long time intervals (*Corrigendum*)

**Key words.** astrometry – ephemerides – reference systems – errata, addenda

There is a typographical error in Table 1; coefficient  $C_7$  for  $Q_A$  should read 198.296701 instead of 198.296071. The same error is present in the Fortran subroutine `ltp_Pecl` in

Appendix A.1. This error does not affect any other expression provided in the paper. We thank Jean-Marc Baillard for bringing this error to our attention.
