Submitted on 11 May 2022

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Retraction notice

Pasha Zusmanovich

The paper [RHA], published in *Communications in Mathematics*, is plagiarizing the paper [D]. Namely, a large part of the paper [RHA] (Theorem 5, Theorem 6 and its proof, and Problem 1 – basically, the whole section 3 of the paper) is a verbatim repetition of the respective parts (Theorem 1.5, Theorem 2.4, Problem 2.6) of the paper [D], with the replacement of the word “group” by the word “QTAG-module”, and with insignificant changes in notation and typesetting.

In view of this, the paper [RHA] is retracted, and all its authors are banned from submitting their manuscripts to *Communications in Mathematics* in the future.

I am grateful to Professor Danchev, the author of the paper [D], for bringing our attention to the case. At the same time, on behalf of the Editorial Board, I apologize to him, to *SUT Journal of Mathematics*, and to the readers’ community, for providing the pages of our journal for plagiarism. Currently we are evaluating our procedures in order to reduce the possibility of such incidents in the future.
