**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

## Corrigendum to

# “Decoupling the effects of clear atmosphere and clouds to simplify calculations of the broadband solar irradiance at ground level” published in Geosci. Model Dev., 7, 1661–1669, 2014

Due to an oversight in the production process, the wrong Fig. 2 was inserted into the manuscript. The correct figure with its caption can be seen below.

**Figure 2.** Relative root mean of variance of  $K_c$  due to changes in  $P_c$  as a function of  $\rho_g$  and  $\tau_c$  for  $\theta_S = 40^\circ$ , for water cloud (left) and ice cloud (right).
