**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Project Title      Deep reinforcement learning for combinatorial optimization:  
                                 case study orienteering problems

By                      Ivan Pena-Arena

Field of Study      Computer science

Project Advisors   Rym Guibadj  
                                 Cyril Fonlupt

Academic Years    2023

## **ABSTRACT**

**Keywords:** : [Insert keyword here], [Insert keyword here], [Insert keyword here]

# **Chapter 1**

## **Introduction**

## **Chapter 2**

### **Review of literature**

# **Chapter 3**

## **Main result**

# **Chapter 4**

## **Conclusion and discussion**
