

Inventory of supporting informations

Supplementary information

Supplementary information contains:

Supplementary Figures 1-16	pages 2-20
Supplementary Text for crosslinking mass spectrometry	page 21
Supplementary Tables 1-4	pages 21-27
Supplementary Data 1-3	pages 26-32
References	pages 33-34

Supplementary Movie 1

3D view of the Myo6 off-state docked in the negative staining reconstruction (from Fig. 3A).

Supplementary Movie 2

Representation of the crystal packing of the dimerization Myo6 fragment 875-937 as calculated with PyMol. Each crystallographic dimer is represented in a different color.

Source data folder

The source data folder contains:

A pdf file containing the source data supporting the mass spectroscopy experiment mentioned in Sup Fig. 2B legend.

A souce-data.xls file containing source data supporting: Fig 1B, Fig 2B, Fig 2C, Fig 2D, Fig. 3D, Fig. 3E, Fig. 4E, Fig. 5D, Fig. 5F, Fig. 5G, Table 1, SupFig. 1A, SupFig. 1B, SupFig. 1C, SupFig. 1D, SupFig. 2B, SupFig. 2C, SupFig. 2D, SupFig. 2E, SupFig. 3, SupFig. 5A, SupFig. 5C, SupFig. 6, SupFig. 7, SupFig. 9B, SupFig. 9D, SupFig. 11C, SupFig. 11D, SupFig. 11E, SupFig. 14A, SupFig. 14B, SupFig. 16, Sup data 1, Sup data 2 and Sup data 3
