Citizen science toolkit

Agenda of the workshop with researchers participating in the pilot and list of participants

Date: the 6th of March 2023

Time: 16:00-18:00 CET (15:00-17:00 for Edinburgh, 17:00-19:00 for Helsinki)

Timing (CET)	Item
16:00 – 16:05	Welcoming word
16:05 – 16:25	Roundtable <i>Please, present yourself and answer the question: what you like the most about doing research with non-academic actors?</i> <i>2-3 minutes per participant</i>
16:25 – 16:40	Presentation of the pilot project <i>Speaker: Una.Resin Project Manager, Paris 1 University</i>
16:40 – 17:00	Questions and answers sessions <i>Participants are invited to ask question about the pilot project and the modalities of the interviews</i>
17:00 – 17:10	Break
17:10 – 18:00	Discussion of the interview questions <i>The idea of this session is to assure that the questions are relevant to the projects and can be answered</i>

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under grant agreement No 101017416

List of participants in the pilot project

Kinga Anna Gajda,

Jagiellonian University

Associate professor and lecturer at the Institute of European Studies, Jagiellonian University. Professor of cultural studies, doctor of literary studies. Her research interests include issues related to memory, heritage, and intercultural competencies. Has been a visiting scholar at Szwecja, Uppsala University (Sweden), Pázmány Péter Catholic University (Hungary); University of Pécs (Hungary), Universität Wien (Austria), Freie Universität Berlin (Germany), Universität Leipzig (Germany), Univerzita Komenského v Bratislave (Slovakia), Univerzita Palackého v Olomouci (The Czech Republic), University Babeş-Bolyai (Romania), The School of Advanced Social Studies (Slovenia), New Bulgarian University (Bulgaria), Masarykova univerzita (The Czech Republic).

Danila Longo,

University of Bologna

Full professor of Technology for Architecture at the Department of Architecture (University of Bologna). Her fields of expertise include technologies for energy efficiency, buildings innovation, mitigative initiatives for adaptation to climate change, co-design and co-construction processes for green transition of cities, accessibility and valorisation of cultural heritage, technological integration for smart cities and predictive models/scenarios. She has been involved in several EU Research Projects as coordinator of the UNIBO team, many of which involving citizen science, as well as other initiatives involving citizen participation, such as the H2020 project on energy communities and on climate resilient future (GRETA GReen Energy Transition Actions), etc.

More information: <https://www.unibo.it/sitoweb/danila.longo/en>

Francesca Sabatini,

University of Bologna

PhD in Architecture and Postdoctoral Research Fellow at the Department of Architecture, University of Bologna. She focuses on culture-led urban regeneration and the commons, on citizen science and on participatory practices with both her research within the TRACE research team and her professional practice as a project manager. She has participated to workshops and projects involving co-construction and co-design such as the OBRAS project (Opportunities for Boosting urban capabilities: the Role of temporary Architecture and in-between Spaces for cities in transition), GRETA (GReen Energy Transition Actions), etc.

More information : <https://www.unibo.it/sitoweb/f.sabatini/en>

Alicia Castillo Mena,

Complutense University of Madrid

University lecturer, archaeologist specialising in Cultural Heritage Management. Advisor to the Vice-Rectorate for Culture, Sports and University Extension of the UCM. Director of the Cultural Heritage Management Research Group, UCM coordinator of the Interuniversity Master's Degree in Cultural Heritage in the 21st Century: Management and Research, Complutense University of Madrid and Polytechnic University of Madrid. Her main works have focused on the relationship between urban planning and archaeology up to World Heritage issues (check e.g. Documentary). She has two recognised research projects.

Eljas Oksanen,

University of Helsinki

Received a PhD in History from the University of Cambridge for dissertation on the relations between Flanders and the Anglo-Norman world in the Middle Ages, which was published as 'Flanders and the Anglo-Norman World, 1066-1216' in 2012 by Cambridge University Press. His current research interests lie in interdisciplinary digital humanities-led work on medieval and prehistoric material culture as it relates to social and economic development, in studying travel and communications through archaeological and historical sources and exploring the potential of citizen science to advance archaeological knowledge of the past.

He is currently involved in inter-disciplinary GIS-led research as a Marie Skłodowska-Curie Fellow at the University of Helsinki Department of Cultures.

Ruxandra Stoica,

Registered architect and urbanist specialising in the historic environment. She teaches and undertakes professional training and consultancy work in the Scottish Centre for Conservation Studies. After graduating from Ion

University of Edinburgh

Mincu University of Architecture and Urbanism in Bucharest, she studied Medieval Studies at Central European University, before pursuing PhD research on “Ideology of Urban Conservation” at the University of Edinburgh. Ruxandra worked as inspector of historical monuments at the Romanian Ministry of Culture, consultant to the Heritage Settlements Unit, ICCROM (International Centre for the Study of the Preservation and Restoration of Cultural Property) in Rome, and contributed to Europa Nostra, ICCROM, and UNESCO international projects dealing with technical aspects, management, and awareness in heritage conservation and cultural landscapes.

Hanne Vrebos,

KU Leuven

Researcher of participatory processes in neighbourhoods in flux, passionate about urban development, human settlements, cartography, and community resilience. Graduated from Master in Architectural Engineering at the Free University of Brussels (VUB) and Master in Urban Ecological Planning at the Norwegian University of Science and Technology (NTNU), with research projects on housing projects for low income saving groups and colonial architecture in Uganda. After this master’s, Hanne continued her work towards a better urban world with the slum upgrading unit of UN-Habitat. Recently she worked in and did research on refugee settlements in Europe. Currently Hanne is working as an urban resilience officer in the EU Aid Volunteer programme with Concern Worldwide.

Antje Wilton,

Free University of Berlin

Professor of English sociolinguistics with an interest in the many manifestations of the relationship between language and society. In her research and teaching activities, she investigates this relationship from different perspectives, mainly as a conversation and discourse analyst. A special focus of her work is multilingualism and the role of English as a (global) lingua franca and its realisations in conversations of different kinds. For her current research project on social interaction in heritage environments, she broadens her focus to include not only the linguistic level of social interaction, but also the spatial and embodied dimensions that are part of our everyday interactions.
