ABSTRACT

The scientific and philosophical views presented in this work indicated that the re-conscientization of global practitioners of Science and philosophy towards a “common good of all” that exist in the universe and multiverse is critical for the preservation and sustainability of scientific and philosophical drives which has over centuries fed, clothed, housed and provided humanity with all that existed and re-existed in its nature and sphere.

Keywords: *Scientific; Philosophical; Universe; Multiverse; Conscientization*

INTRODUCTION

Over the years the application of Philosophical mindset with Scientific manipulation of nature for the common good of all that exist has yield tremendous benefit to the planet earth, her inhabitants both animate and inanimate and to other multiverse and beyond (Kaku, 2011⁷). Building upon this view, it is imperative that practionners of Science and Philosophy be conscientized towards the ultimate achievement of the common good of all. It is on this premises that this study which aimed at the careful collection and presentation of the scientific and philosophical statements of M. S. Adiaha 2021 becomes imperative.

SCIENCE QUOTES WITH PHILOSOPHICAL CONSCIENTIZATION

“Science For All Nations”^[1]

1. “Science For Innovation”^[1]

“The application of Science for innovation is key to human advancement”^[1]

2. “Advance Human Civilization”^[1]

“It is critical that we look closely into the benefit of Physics for advancement of human into typological ranking of civilization”^[1]

3. “Science for the Good of All”^[1]

“Science for the good of all is critical to sustain humanity”^[1]

4. “Scientific sustainability is critical for meeting global sustainability”^[1]

5. “The immortality of knowledge that we own as the most advanced evolved species should be for the common good of all”^[1]

6. “Science with passion is the greatest gain for humanity”^[1]

7. “The Integrity of the Outcome of Scientific Findings Is Key to its Applicability for Solving Real-life Problems”^[6]

The Manipulation of Nature for A Common Good Of All Could Be Called "Science"^[2]

“For I will deal in science for the days of my living. And oh, the Earthly system upon which philosophies are built I will respect for the common good of humanity”^[2]

"Science Is Life"^[2]

“Working toward full realization of type-one, type-two, type-three advanced human civilization is critical for the sustainability of the human specie and beyond”^[2]

"Science for all Good"^[3]

“Open Science and transparent scientific academic practices is critical for global development”^[3]

"For The Love Of Science"^[4]

“Beyond today Science and Philosophy will live on”^[4]

"Only The Knowledgeable Can Create, But Consistent Creation and Modification Leads To Unending Innovation"^[5]

“Scientific sustainability is the key to all that we have and use today. If we do not research and create then far is our sins and shame as the most evolved among the living entities in the universe”^[5]

[5]

CONCLUSION

The conscientization of the Scientific communities with philosophical ideology could trigger generations of passionate and enthusiastic Scientists and Scholars. Hence, the recalibration of the

minds of scientific and philosophical practitioners is key for gearing type-one, type-two including type-three and four advanced human civilization and could play a critical role in global sustainability.
