HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

KEYWORDS

machine learning, phytoplankton variability, satellite ocean color, decadal variability, global scale

A Corrigendum on

[Reconstructing global chlorophyll-a variations using a non-linear statistical approach](#)

By Martinez E, Gorgues T, Lengaigne M, Sauzède R, Menkes C, Uitz J, Di Lorenzo E and Fablet R (2020). *Front. Mar. Sci.* 7:464. doi: 10.3389/fmars.2020.00464

Error in Author List

In the published article, there was an error in the author list, and author Clément Fontana was erroneously included as a co-author as well as in the Author Contributions section.

The corrected author list appears below.

Elodie Martinez^{1,2*}, Thomas Gorgues¹, Matthieu Lengaigne^{3†}, Raphaëlle Sauzède^{2†}, Christophe Menkes⁴, Julia Uitz⁵, Emanuele Di Lorenzo⁶ and Ronan Fablet⁷

The corrected Author Contributions section appears below.

EM led the project, analyzed the results, and wrote the first draft of the manuscript. TG provided the physical model outputs. TG and ML provided support in the analysis and the writing of the manuscript. RF provided the feedbacks on the statistical approach. All the authors contributed to the development of the manuscript and provided the feedbacks throughout its many stages of preparation.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
