HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

THE INFRASTRUCTURE BIBLISSIMA + AND THE CLUSTER A

▷ **Biblissima+** (Observatory of Written Cultures, from Clay to Print, 2021-2029) is a **French infrastructure of research** that unites 16 public institutions and a private company. Its primary focus is the study of written cultures and the textual transmission throughout the ages.

▷ The infrastructure is divided into 7 specialities organised into **Clusters**. The **Cluster 5A «Epigraphie and TEI»**, coordinated by Estelle Ingrand-Varenne (CESCM-Poitiers) and Michèle Brunet (HiSoMA-Lyon), focuses on the digital edition of epigraphical sources from Antiquity to Modern Era.

The Aims of the Cluster 5A :

▷ Reflexion on a **common epigraphical vocabulary** accross different periods, which will be carried out on Opentheso, a thesaurus manager.

▷ Elaboration of a **common schema in XML-TEI** with the Epidoc specification for epigraphical sources from ancient Egypt to Modern times.

▷ Realization of **International Image Interoperability Framework Manifests** to provide access to high-quality images from various corpora, enabling multiple display options and image annotations.

Two project members of the Cluster 5A :

- ▷ **Graph-East** (Epigraphic writing in Latin alphabet in the Eastern Mediterranean (7th-16th c.).
- ▷ **Titulus** (corpus of Inscriptions of Medieval France)

WORK IN PROGRESS : The Transmission of the edited volumes of the CIFM* and their photographs to Biblissima

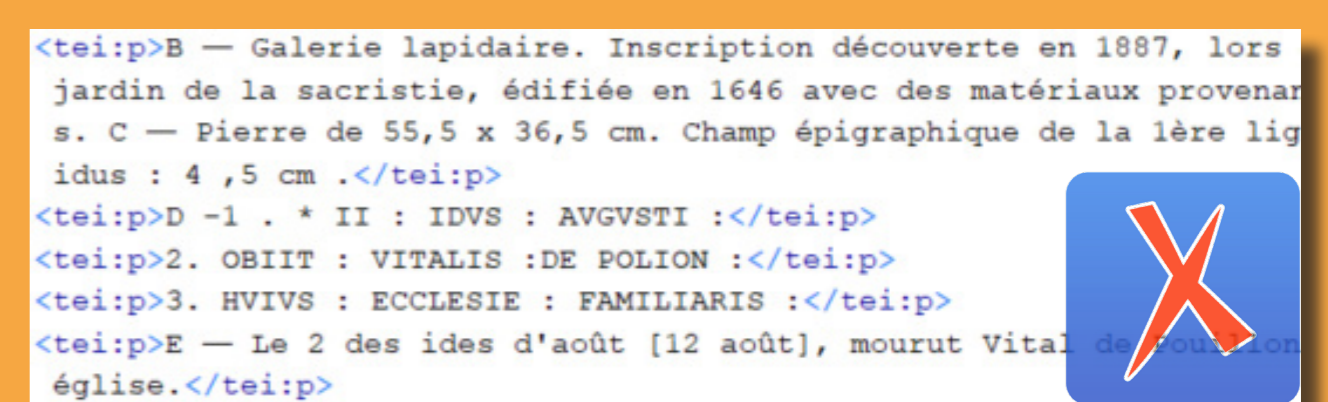

Deposit of images of inscriptions from the CIFM on the digital repository **Nakala**

niiif-niiif 0.3.1

pip install niiif-niiif

Manifest URL for a IIF viewer : <https://api.nakala.fr/data/10.34847/nklbbed->

Creation of a **IIF Manifest** for each image with its ID Nakala

Curation and markup of each volume of the CIFM and **integration of IIF Manifests**

Depositing of the files on the repository **Github**

Biblissima+

Observatoire des cultures écrites de l'argile à l'imprimé

Verification and integration of data into the portal by the **Biblissima team**

(Soon...) Inscriptions, images and metadata accessible on the portal.

* CIFM : Corpus of Inscriptions of Medieval France, edited in Poitiers since 1974.

Access to the Cluster 5A
