HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire HAL, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Game-based and playful  
Approaches to  
Mathematics Education

Rome, September 9-10, 2024

# Proceedings

## Editors:

Annalisa Cusi

Andrea Maffia

Sonia Palha

Anna-Marietha Vogler

Published on the 19<sup>th</sup> of June 2025  
by the European society for Research in Mathematics Education (ERME)

GAME (Game-based and playful Approaches to Mathematics Education) is the 18th ERME Topic Conference which took place in Rome at “La Sapienza” on the 9th and 10th of September 2024.

<https://www.game-conference.eu/>

#### **Organizing Committee (OC)**

Annalisa Cusi (La Sapienza University of Rome, Italy); Andrea Maffia (University of Bologna, Italy); Sonia Palha (Amsterdam University of Applied Sciences, The Netherlands); Anna-Marietha Vogler (Martin-Luther-University Halle-Wittenberg, Germany)

#### **International Program Committee (IPC)**

Annalisa Cusi (La Sapienza University of Rome, Italy); Francesca Ferrara (University of Torino, Italy); Luca Lamanna (University of Bolzano, Italy); Andrea Maffia (University of Bologna, Italy); Ljerka Matić (Croatia); Sonia Palha (Amsterdam University of Applied Sciences, The Netherlands); Christine Streit (University of Applied Sciences Northwestern Switzerland, Switzerland); Anna-Marietha Vogler (Martin-Luther-University Halle-Wittenberg, Germany)

#### **Local Organizing Committee (LOC)**

Annalisa Cusi (La Sapienza University of Rome, Italy); Andrea Maffia (University of Bologna, Italy); Silvia Baccaro (La Sapienza University of Rome, Italy); Luigi Bernardi (Roma 3 University, Italy); Francesco Contel (La Sapienza University of Rome, Italy); Francesca Coppa (Liceo Plinio Seniore); Lorenzo Pollani (La Sapienza University of Rome, Italy); Cintia Scafa Urbacoz Vilchez (INValSI, Italy); Liliana Silva (GSRC & University of Modena and Reggio Emilia, Italy)

# Table of Contents

Introduction .....	1
Cusi A., Maffia A., Palha S., Vogler M.A.	
<b>Research Reports</b>	
<hr/>	
Teachers designing a card game for exponential growth models through lesson study.....	5
Andriano V.	
Using a videogame and metacognitive reflection to design inclusive paths: the key role of the teacher .....	9
Baccaro S.	
Empowering students as game designers: A teaching experiment on triangle classification.....	13
Bagossi S., Nikolaou M.S., Beltramino S.	
Using the game BOREL for stimulating probabilistic thinking.....	17
Buchholtz N., Aslaksen H., Allmendinger H.	
Teacher’s perspectives on guided plays role in students’ meaningful mathematical learning.....	21
Bundgaard M.A., Ottar Jensen E.	
On how a Bee and a Piglet helped us in turning a game into a context for experiencing logical principles .....	25
Casi R., Sabena C., Soldano C.	
Discussing about games: focus on the teacher’s orchestration .....	29
Cusi A., Morselli F.	
Exploring the influence of the digital learning app Fingu on early mathematical skills and motivation .....	33
Dahl D.S., Kortenkamp U.	
Learning to solve subtraction and addition word problems through an interactive digital game.....	37
Erbilgin E., El Zein F.	
Games promoting grids as objects-to-think-with for intuiting space .....	41
Francis. C., Gierus B.	
Bridging game design and playful mathematics learning: the case of Function Dungeon and Fractions Lab .....	45
Geraniou E., Mavrikis M., Palha S.	

Playing a math game in a classroom: What does it mean for the teacher during the gameplay? .....	49
Héroux, S.	
Contrasting students' scaffolding uptakes in a playful learning routine.....	53
Kristiansen J.H.	
Playing math games in preschool with and without tutoring activities .....	57
Kuban F., Schuler S.	
Using boardgames to develop mathematical competence: A systematic review .....	61
Maffia A., Silva L., Morais A.	
Experiencing mathematics through commercial board game play .....	65
McFeetors P.J, Francis K.	
Perceptions of higher education students on the potential of games for developing 21st century competences: video games vs board games .....	69
Morais A., Joaquim A. Sousa H., Dominguez C., Aires A.P.	
Exploring the disciplinary perspectives in the primary studies from seven reviews on games, learning and mathematics.....	73
Ottar Jensen E., Højgaard Retz Jespersen J.	
A framework to investigate teachers' competences in game-based learning.....	77
Palha S., Jukić Matić L.	
Comparing digital and non-digital games: Student perspectives.....	81
Russo J., Russo T., Roche A.	
The emergence of fundamental ideas in peer play cultures.....	85
Vogler A.M., Henschen E., Teschner M.	
Students' mathematical reasoning while engaging in a strategy game .....	152
Højbjerg K., Honoré I.R. , Bundgaard M.A.	

## **Poster Presentations**

---

Identifying knowledge for teaching when creating an escape game.....	89
Bertin C.	
Explain it to me! – AI-based argumentation tasks in the context of digital mathematical escape-games .....	91
Eckhardt H., Thurm D.	
Investigation of the impact of Puzzle-Based Learning on students' self-efficacy and employment .....	93
Evans T., Thomas M., Klymchuk S.	

The role of verbal support when using number games to promote early numerical competencies.....	95
Herrmann A., Schuler S.	
Educational escape room as innovative learning environments for mathematics problem solving process in primary school .....	97
Juteau M.C.	
A digital Escape room to teach sequences and progressions in a multidisciplinary project .....	99
Lepellere M.A., Toso M.	
Impact of teaching practices on students' procedures in the Mathador game .....	101
Ludier I.	
Maths with dog .....	103
Platz M.	
Game On: Improving student motivation through a gamified environment at a Polish university .....	105
Russo, C., Gwóźdź-Łukawska, G., Połyrała, M., Lavicza, Z.	
Playing with magic squares.....	107
Segre S.D.	
GBL in plane geometry: Developing definitory thinking.....	109
Tortorelli L.	
Play – Create – Learn (KIDEDU), a digital game based learning proposal for Greek elementary school pupils.....	111
Tsami E., Anastasopoulos D., Rokopanos A., Kouloumpou D., Skiadas P.	

## **Workshops**

---

Architectural, Cultural and Historical game-based modelling approach though integrating ChoiCo and Geogebra.....	113
El Bedewy S., Nikolaou M.S.	
Playful learning with mathematical magic.....	117
Hall A., Pais S.	

## **Game Demonstrations**

---

Using cards to learn maths: 'match-3' experience .....	121
Adrovic M., Bianco G., Di Giorno M., Manassero M.	
The Red Circle: immersive adventures in learning derivatives.....	123
Anagnostopoulou E.	

Borel: A customizable game about probability experiments .....	125
<i>Aslaksen H., Buchholtz N., Allmendinger H.</i>	
Alea iacta est: variations of dice activities in primary education .....	127
<i>Bagota M., Kulman K., Zámbo C.</i>	
The Function Dungeon Authorable Game: involving teachers and students in educational game design .....	129
<i>Bouwer A., van Crasbeek E., Palha S., van Smaalen D.</i>	
Transposing mathematical content into gaming .....	131
<i>Cazzola M.</i>	
Watch out, Fox! A game to work with probability .....	133
<i>de la Fuente Silva A., Gilardi Olarrea L.</i>	
E(qua)scape room: Microworld in the gaming context .....	135
<i>Jukić Matić L., Marković D.</i>	
The yoyo-bird: a competitive digital game as a transformative learning environment for trigonometric functions.....	137
<i>Karavakou M., Schiza K., Kynigos C.</i>	
Adapting boardgames for the primary mathematics classroom: the Italian project “Numeri & Pedine” .....	139
<i>Maffia A., Silva L.</i>	
Exploring and understanding regular polyhedra using augmented reality .....	141
<i>Martinelli A., El Bedewy S., Lavicza Z.</i>	
Blindfolded games in mathematics education.....	143
<i>Morando P., Spreafico M.L.</i>	
Poligonopoli.....	145
<i>Morando P., Spreafico M.L.</i>	
Exploring rep-tile tangram through collaboration and competition .....	147
<i>Segre S.</i>	
Geometriko Academy .....	149
<i>Tortorelli L., Tinterri A.</i>	
Math Secret Word Game.....	151
<i>Yılmaz, N., Uygan, C.</i>
